Subject: GravelKing Pro — creator-audio provenance and a focused \$250K–\$500K angel round

Hi [Name], I'm building GravelKing Pro through GravelKing Productions: a live creator-audio workspace combining JAX songwriting sessions, immutable AI lyric snapshots, direct human lyric editing, authorship tracking, creator audio tools, unmastered generation, and paid MLK v3.5 mastering. The product is live at gravelkingpro.com. The current production snapshot is 123 users, 41 tracks, and 27 certificate records. I'm raising \$250,000–\$500,000 in cash capital to prove paid retention, run one partner pilot, reconcile the IP and billing data room, and build a repeatable acquisition channel. Would you consider a [recommended ask] investment, or introduce me to someone who would? Would you be open to a 20-minute conversation?

LinkedIn note

Hi [Name] — I'm building GravelKing Pro, a live creator-audio workspace focused on provenance, authorship evidence, and production. I'm preparing a focused \$250K–\$500K angel round and thought your music/creator/AI investment background could be relevant. Open to connecting?
